THE ANCIENT ORDER & PRESIDENTS
LINCOLN, NIXON & CLINTON
I O   I O   I O

● The most notable U.S. President of the 1800's to be assassinated was ABRAHAM LINCOLN, who was assassinated on April 14, 1865. His last name, Lincoln, has only the "I&O" as vowels. In the 1900's, only 2 U.S. Presidents faced Impeachment Proceedings: RICHARD NIXON and WILLIAM CLINTON.

Lin·coln, A·bra·ham *n* (1809–65) 16th president of the U.S. 1861–65; assassinated by John Wilkes Booth

● Nixon resigned the Presidency in disgrace on August 8, 1974. Clinton's Impeachment Process began on December 19,1998. He was acquitted on February 12, 1999. Look at the last names of these 3 Presidents:

● LINCOLN,   NIXON   &   CLINTON
    I O   I O   I O

All 3 names have "I&O" as the only vowels and in that exact order.

● Also, notice the Impeachment Proceeding dates for President Clinton. December 19 is 12 days before January and February 12 is 12 days after January. And 12 + 31 + 12 = 55. The Beast of Burden code is BOB, 202, 22, 2/2 or February 2nd, the 33rd day of the year. 22 33. The Beast of Burden day is 22 33 and 22 + 33 = 55.

/2-17-99

● President Lincoln was assassinated on 4-14-1865, the 23,846th day of the 1800's. There are 36,525 days in a century. 36,525 - 23,846 = 12,679. Lincoln was assassinated 12,679 days before the end of the 1800's.

```
  36,525
 -23,846
  12,679
```

```
  13,000
 -12,679
     321
```

● 13,000 - 12,679 = 321. Notice how far 12,679 is from 13,000. The difference is 321, just like 3,2,1, a countdown. Now look at Lincoln's name total:

● A   B   R   A   H   A   M   L   I   N   C   O   L   N
  1 +2 +18 +1 +8   +1 +13=44   12 +9 +14 +3 +15 +12 +14=79   44+79=123

President Lincoln's name adds to exactly 123. And that was from the day he was born in 1809. He was assassinated 12,679 days before the end of the century and 12,679 is exactly 321 away from 13,000. 123 & 321 are the exact opposite of each other.

● President Nixon resigned the Office of the Presidency on 8-8-74. That was the 27,249th day of the 1900's. President Clinton's Impeachment Proceedings were begun by Congress on 12-19-98, which was the 36,148th day of the 1900's. 36,148 - 27,249 = 8,899.

Nixon (nik′sən) Richard Milhous 1913–94. The 37th U.S. President (1969–74); resigned.

```
  36,148
 -27,249
   8,899
```

● Congress began the Impeachment Proceedings of President Clinton exactly 8,899 days to the day that of President Nixon resigning the Presidency in disgrace rather than face Impeachment.

● 8,899 = 809 x 11. But to get 8,888 from 8,899, all you have to do is subtract 11: 8,899 - 11 = 8888. And 8,888 = 101 x 88. So you get the 88 multiplied by 101. The ANCIENT ORDER's doctor code is "101", from the 101st element, MENDELEVIUM, abbreviated "Md" just like "medical doctor". The full equation for 8,899 with the "101" doctor code is [(101 x 88) + (11)] = 8899
